DIRECTORY OF UNDERGRADUATE PROGRAMS AND COURSES

Definitions
Certificate — A registered program leading to a certificate.
Courses — Indicates the availability of course work in a discipline or subject area without a major or minor program.
Minor — A concentration of 18-24 credit hours within a particular field that has been approved by the Faculty Senate.
Option — A study option or specialization within an approved degree program.
Major — A registered program leading to a baccalaureate.
Combined — A registered program leading to simultaneously awarded baccalaureate and master’s degrees in a coordinated, condensed, time-shortened manner.

Enrollment in other than registered or approved programs may jeopardize a student’s eligibility for student aid awards.

SUNY Plattsburgh’s Academic Plan

The academic plan for a baccalaureate at SUNY Plattsburgh consists of a major and a general education program, which is intended to provide the skills, breadth of knowledge, and perspectives all college graduates should have beyond the major. The bachelor’s degree may also consist of electives and/or a minor. In addition, there are a number of overall degree or graduation requirements. These are described below, followed by the general education program and the various major and minor programs.

Graduation Requirements
Candidates for bachelor’s degrees must meet the following requirements:

A. General Education Requirements
Completion of all courses necessary to meet the general education requirements. The foreign language and information and technology literacy requirements may be satisfied by proficiency examination. Certain courses may satisfy both general education requirements in the skills or knowledge and understanding categories and also requirements in the major. Students should see the list of courses approved to meet the general education requirements below and in the Banner Master Schedule (www.plattsburgh.edu/register) and the list of courses required for the major.

B. Major Requirements
Completion of all courses required in the major, including departmental requirements, cognate requirements (if any), and for childhood education majors, the liberal arts concentration. Some majors also require course grades and GPA’s above the college minimum.

C. Credit Hours
1. A minimum of 120 credit hours is required for graduation. Because of certification requirements, students in some programs must complete more than 120 credit hours.
2. As part of the 120 credits, students must complete a minimum of 90 credits in the liberal arts to be eligible for the bachelor of arts or a minimum of 60 credits in the liberal arts to be eligible for the bachelor of science.
3. Students may transfer a maximum of 67 credit hours from a two-year college.
4. Students transferring from a four-year college may transfer a maximum of 84 semester credit hours provided that at least 17 of those credit hours were completed at the four-year college and that they meet other appropriate residency requirements at the college.
5. A minimum of 42 credit hours of upper-division courses, designated by SUNY Plattsburgh as 300 or 400 level, or its equivalent is required for graduation. Of these upper-division credits, 21 credits must be earned at SUNY Plattsburgh; not more than 21 transfer credits may be used to fulfill this requirement.
6. Students may apply a maximum of four credit hours of physical education activity courses (PED 100-194) toward their degree.

D. Residency Requirement
1. A minimum of 36 credit hours must be completed at SUNY Plattsburgh. Credit earned through examinations may not be counted toward this requirement.
2. A student must earn 30 of his or her last 36 credits in courses for which he/she is registered through SUNY Plattsburgh. Exceptions:
   a. students in programs that require final coursework to be completed off campus (i.e., cytotechnology, medical technology, engineering 3+2 programs);
   b. students completing final course work in SUNY-sponsored study abroad and/or student exchange programs such as the National Student Exchange program (sponsored by a university center or four-year liberal arts college);
   c. students completing final course work through approved cross registration; and
   d. students majoring in nursing (RN-to-BS Online Program Option).
3. A student must complete at least 18 credit hours in his or her chosen major through coursework at SUNY Plattsburgh. These 18 credit hours may not include credit gained by proficiency examination. Note that some programs require that a larger number of credit hours in the major be completed through SUNY Plattsburgh courses.

E. Grade Point Average
The minimum requirement to qualify for graduation is a 2.0 cumulative grade point average (on a 4.0 scale) and an overall 2.0 average in courses which are taken from the student’s major department or program. In addition, all students, including transfer students, must obtain a minimum grade of C (2.0) in College Writing II (ENG101). Some academic departments also have approved policies requiring minimum grades in specific courses or major sequences. Students should see individual listings of major programs for specific requirements.

F. Commencement Honors
Commencement honors are based on the student’s undergraduate GPA at Plattsburgh. Students must complete at least 57 hours of residence study (with a minimum of 45 credit hours graded A through E) at SUNY Plattsburgh to be eligible for honors designations at graduation. Special recognition of superior scholastic achievement is given with the designation of summa cum laude (3.9-4.0 GPA), magna cum laude (3.7-3.89 GPA), and cum laude (3.4-3.69 GPA).
General Education

General education courses are opportunities to gain skills and insights that will be useful one's entire life, no matter what the choice of major or career objectives. SUNY Plattsburgh recognizes that general education courses are an integral part of the total degree program — of equal importance to the major field of study.

Objectives
The General Education Program is designed to reinforce students’ abilities to:

- read with comprehension
- apply quantitative skills
- communicate effectively in written and spoken English
- communicate in a second language
- use technology effectively
- filter, analyze, and critique information and experience.

Additionally, the General Education Program is designed to extend students’ understanding and appreciation of:

- the complexity of the world in which we live
- the arts and aesthetics
- the sciences and mathematics
- the “great ideas” of humanity
- the cultures of the world
- the nature of society
- the moral responsibilities of the individual
- the continuity of history and the changes influenced by historical processes.

Requirements/Policies
A new General Education Program (GE4) was put into effect for students who began their college education as freshmen in fall 2004. All new transfer students and readmitted students who had 70 or fewer credits when they left the college follow this new program (GE4). Readmitted students who had completed more than 70 credits when they left the college may complete the general education program that was in effect at the time they left. Students should contact their academic advisor or the Academic Advising Office at 518-564-2080 if they have questions concerning General Education.

1. Relationship to major: Courses completed to fulfill The Skills and The Knowledge and Understanding requirements may also fulfill a major requirement. To fulfill The Integration requirement, a course must be outside the major department and cognate requirements for the major. (Students with double majors may use courses within either major to complete The Integration requirement; childhood education majors may use courses in their concentrations to satisfy The Integration requirement.)

2. Relationship to minors and second majors: Courses taken to fulfill general education requirements can also be applied to minor and/or second major requirements.

3. Time frame: Students are expected to complete The Skills requirements by the beginning of the sophomore year (except for the Oral Expression requirement which students may complete with a designated upper-division course). Transfer students are expected to complete The Skills by the end of their second semester at the college. The Knowledge and Understanding requirement should be completed before the end of the sophomore year. The Integration requirement is met through upper-division courses that should be taken after The Skills and The Knowledge and Understanding requirements have been met.

4. Transfer students: The Admissions Office evaluates all transfer credits. Most transfer students will have completed many of The Skills and The Knowledge and Understanding requirements; approved substitutions may be transferred into the program. Questions about transferring work from other colleges taken before admission to SUNY Plattsburgh should be directed to the Admissions Office 518-564-2040.

General Education Program (GE4)

The general education curriculum (GE4) consists of a minimum of 35 credit hours and is divided into three parts: The Skills, designed to provide students with the foundation for their academic career; The Knowledge and Understanding, intended to engage students in broad introductions to major areas of liberal arts studies; and The Integration, for upper-level students, examining problems, themes, topics, and interpretations which build on The Knowledge and Understanding courses.

General education courses are essential to the student’s academic plan; these courses establish high expectations of students and encourage active learning. The Knowledge and Understanding and The Integration courses are intended to reinforce the skills of reading, writing, speaking, critical thinking, information management, and mathematics. General education courses are also designed to reflect diversity of content and scholarship and offer a broad focus; engage students in critical reflection on issues of race, gender, and class, as appropriate to the discipline; include regional or local content where appropriate; include international content where appropriate; include technology appropriate to the discipline; and include an ethics component.

With the exception of ENG 100 College Writing I and ENG 101 College Writing II, there are no single specific course requirements. Students, with the assistance of their advisors, choose from a group of courses which fulfill the goals of each of the components of the program. Approved courses within each category are
listed below and on the following pages. For the most up-to-date list see the online Banner Master Schedule at www.plattsburgh.edu/register.

Learning Communities
Students have the option of satisfying several of the general education requirements through learning communities. Each learning community consists of three or more thematically linked courses taught by collaborating faculty and taken by a group of 25 or fewer students. Learning Communities afford students the opportunity to develop skills and study subject matter in an interdisciplinary environment. All learning communities are designed so that students satisfy the oral expression requirement of the general education program (in addition to at least three other general education requirements satisfied by particular courses), and in some learning communities, students are provided the opportunity to demonstrate proficiency in other areas as well. For more information, including a list of learning communities available in fall 2009, see www.plattsburgh.edu/admissions.

Prerequisites for GE4
It is assumed that students will enter the college with competencies:

- in foreign language equal to FL 111 (the first college semester),
- in English composition equal to ENG 100, and
- in mathematics equal to MAT 101.

Students who do not have these competencies when they enter must achieve them before completing the related parts of the general education program.

A. THE SKILLS REQUIREMENTS (6-16 credit hours)
The Skills enable students to communicate effectively, think quantitatively, analyze and solve problems, and find information. They provide a foundation for students to derive the greatest benefit from the academic program. Students are expected to complete the requirement before the beginning of the sophomore year; transfer students are expected to complete this requirement within two semesters of matriculation. (Exception: Students may complete the Oral Expression requirement later with an approved upper-division course.)

Written Expression (3-8 credit hours) — 4WE
All students without transfer credit for this requirement must take an English placement examination. As a result of the examination, some students will be eligible to register for ENG 101 without having to take ENG 100. A minimum grade of C (2.0) in ENG 101 is required for graduation.

Required courses: 1. ENG 100 College Writing I (4 cr.) or Proficiency by exam (0 cr.)
2. ENG 101 College Writing II (3-4 cr.)

Oral Expression (0-3 credit hours) — 4OE
The ability to think and speak clearly is essential to an educated person in his/her professional and personal endeavors. Specially designated oral expression courses that require knowledge, practice, and demonstration of effective oral communication skills are included in this category. Most courses in this category meet major or other general education requirements; in that case the course credits are allocated to the other category.

Select one course:
- BIO 380 Communicating Biology (3 cr.)
- BIO 490 Cellular Biochemistry Research Experience (15 cr.)
- BUS 203 Business Ethics and Modern Society (3 cr.)
- CHE 391 Written and Oral Reports (3 cr.)
- CMM 101 Intro. to Public Speaking (3 cr.)
- EDU 394 Block II: Elementary Curriculum and Instruction (6 cr.)
- EDU 465 Curriculum Design (7 cr.)
- EDU 395 Block II: Secondary Curriculum and Instruction (6 cr.)
- INT 120 Individual, Academic, and Social Expression (3 cr.)
- NUR 437 Professional Issues (3 cr.)
- THE 106 Intro. to Acting (3 cr.)

Mathematics (3-4 credit hours) — 4MAT
Courses in this category introduce students to mathematical thinking and logic (building upon basic quantitative skills), emphasize the applicability of mathematics to real life situations, and are intended to instill a sense of mathematics as a creative and useful endeavor. Students must demonstrate competency in arithmetic and basic algebra through an exam administered by the Mathematics Department, SAT or ACT scores, or previous college course work before taking one of the courses listed below.

Select one course:
- CSC 217 Logic, Members, and People – Discrete Math with Computer Applications (3 cr.)
- MAT 131 Quantitative Reasoning in Basic Mathematics (3 cr.)
- MAT 133 Mathematics in Context (3 cr.)
- MAT 161 Introductory Statistics (3 cr.)
- MAT 221 Calculus for Life, Management, and Social Sciences I (3 cr.)
- MAT 224 Calculus I (4 cr.)

Information and Technology Literacy (0-1 credit hour) — 4ITL
The ability to effectively use and manage library and information resources and technologies is the basis for expanding one’s knowledge and understanding in every area of study. Students must complete LIB 102 or LIB 105 or demonstrate proficiency in these skills through a proficiency examination given each semester. Students who have previously enrolled and withdrawn from a library course may not sit for the proficiency exam; they must complete the course.
Select one course (or demonstrate proficiency):
LIB 102 Introduction to Information Management (1 cr.)

B. THE KNOWLEDGE AND UNDERSTANDING REQUIREMENTS (23-29 credit hours)

Courses fulfilling The Knowledge and Understanding requirements are broad-based introductions and surveys focused on different ways of knowing, and different areas of knowledge. The Knowledge and Understanding requirements should be completed by the end of the sophomore year.

Natural Science and Technology (5-8 credit hours) — 4NST/4NSP

Courses focused on the models and methods of at least one of the natural sciences, using quantitative and experimental data, and discussing the evolution and limitations of scientific inquiry and pertinent connections between science, technology, and society enable students to function more effectively as informed citizens. Courses in this category explore the fundamental assumptions and principles of the scientific method, illustrated by laboratory and/or fieldwork. They also make clear the difference between science and technology and enable students to critically assess technological worth. At least one course selected must meet the SUNY Natural Science requirement. Courses which do not meet the SUNY requirement are indicated by an asterisk (*).

Select two or three courses for a minimum of five credits (one course must meet the SUNY requirement):

C. THE INTEGRATION REQUIREMENTS
(6-7 credit hours)

The Integration courses, building on The Knowledge and Understanding categories, focus on problems, themes, topics, and interpretations. Each student must complete one course from the Global Issues category and one course from either the Individual, Society and Responsibility category or the Art, Literature and Interpretation category. These courses are intended for upper-level students (60 credits or more) who have already completed The Skills and The Knowledge requirements. Any semester-long, approved, satisfactorily completed study abroad program will satisfy The Integration requirements. To meet The Integration requirements, a course must be outside the major department and cognate courses for that major. (Students with double majors may use courses within either major to satisfy The Integration requirements, and childhood education majors may use courses in their concentration to satisfy these requirements.)

Global Issues (3-4 credit hours) — 4GLO
Courses in this category encourage students to think transnationally or transculturally about social, political, economic, aesthetic, moral, and technological issues as world citizens. These courses will contribute to students’ understanding about issues such as human rights, migration, trade, poverty, access to health care, and technology, and the ramifications of policies regarding political power, militarization, and the environment. Courses in this category engage in comparative studies of a global theme across different nations, cultural groups, or cultural regions.
