Admission and Transfer Credits

Candidates seeking admission to the RN-to-BS Study Option Program are considered transfer applicants.

Students transferring from a two-year college may be granted a maximum of 67 two-year college credits. If the student also has four-year college credits, an additional 17 credits may transfer, for a total of 84 credits. Students must meet a residency requirement of 36 credits from SUNY Plattsburgh.

Applications for admission will be evaluated on the following criteria:

- A candidate must be a graduate of a nursing program that is approved by the legal body that registers nursing programs in the state or Canadian province in which the program is located.
- Current Registered Nurse Licensure in New York State is required.
- Transfer students must have attained an overall grade point average of 2.5 on a 4.0 scale for completed courses.

Our mission is to prepare excellent professional nurses capable of meeting the dynamic health care needs of individuals, families, groups and communities.

We value:

- mutual respect, collaboration, and support within the learning environment;
- service and leadership through a commitment to academic excellence, ethical values, social justice, and responsible citizenship; and
- the highest standards of integrity and accountability for holistic, collaborative nursing practice.
