SUNY PLATTSBURGH WASTE DETERMINATION

Name: 
Department: 
Building and Room #: 

Name of Procedure: ______________________________________

Chemicals Used / Characteristic Hazards if known (use codes) 

<table>
<thead>
<tr>
<th>Health</th>
<th>Fire</th>
<th>Reactivity</th>
</tr>
</thead>
</table>

Procedure: ___________________________________________________

Waste products generated / Approx quantity / Known Hazard / Specific Hazard

1. _____________________________ / _______ / ______ / ______
2. _____________________________ / _______ / ______ / ______
3. _____________________________ / _______ / ______ / ______
4. _____________________________ / _______ / ______ / ______

Special Disposal: ____________________________________________

Indicate any Characteristic Hazards using the following (e.g. A3 for ignitable compressed gases)

A. Ignitability:
   1. Liquid, with closed cup flashpoint<140 deg.F
   3. Ignitable compressed gases.

B. Corrosivity:
   • Aqueous pH<\/= 2 or pH =/>12.5

C. Reactivity:
   1. Unstable, Reacts Violently
   2. Forms potentially explosive mixtures with water
   3. Forms toxic gas, vapors or fumes when mixed with water.

D. Toxicity: MSDS Toxicity warnings of constituents.
